## Enhancing Services and Improving Quality

### Building homes that take customers views into account

Tokyu Land Corporation's "BRANZ" condominium brand has been using the "BRANZ VOICE" activity to canvas customers' views using surveys and interviews.

The opinions expressed by customers in these venues are used to identify customer needs; BRANZ then leverages its know-how and integration capability to transform these into physical form. Based around the concept of "Functional beauty that enhances your living experience," BRANZ has developed the "MEUP" original product plan. To date, surveys conducted regarding the issue of water circulation—an issue that many customers had expressed opinions about—have resulted in the commercial launch of MEUP kitchens, powder rooms and bathrooms.

Group interview

#### Wash-basin

Two different types of wash-basin are available, to meet the needs of people who like to be able to relax and use the wash-basin alone, and people who want to be able to use it together with another person in the morning when people are getting ready to go out.

## Service-way Forum

In 2009, the Tokyu Fudosan Holdings Group launched the Service-way Forum (SWF), the aim of which is to ensure a high level of customer satisfaction with service provision throughout the Group by promoting the sharing of know-how and information between Group member companies, particularly the five companies\* whose personnel are most likely to have direct contact with customers (in relation to operation, etc.).

For example, one SWF activity is the implementation of the Hospitality Enhancement Program, a training program conducted by Tokyu Harvest Club, a membership resort hotel chain, which aims at ensuring that Tokyu Harvest Club employees provide guests with service that reflects a higher level of hospitality.

Besides putting in place measures to ensure that staff members remember guests' names, steps have also been taken to make sure that guests remember staff members' names, including the display of a Staff Board and the use of "face-cards" instead of conventional name-cards. The aim of these measures is to strengthen staff members' relationship with guests.

## Tenant satisfaction survey

Tokyu Land SC Management Co., Ltd. investigates the satisfaction level of our company's management (relations, safety management, working environment in tenants, etc.) once a year for store managers of residents of major commercial facilities. Based on the responses of the questionnaire, we are extracting the issues of each facility and working on improvement.

## Providing Safety and Security

### Strengthening disaster preparedness measures

Tokyu Land Corporation's "BRANZ" condominium brand has been working actively to strengthen disaster preparedness, for example by becoming the first condominium brand in Japan to incorporate "pantry shelters" (which are used as storage space under normal circumstances, but can be used as an emergency shelter in the event of an earthquake etc.) Comprehensive measures have been taken to enhance disaster preparedness, including strengthening of the building structure, the making of improvements to storage facilities, and the arrangement of disaster prevention activities at the level of the building management unit, etc., with the aim of strengthening residents' awareness of the importance of being prepared for disasters.

### Condominium design that emphasizes safety and peace of mind

Tokyu Land Corporation is working to create condominiums whose residents can enjoy safety and peace of mind.

To prevent furniture from falling over during an earthquake, we conduct testing in a vibration simulator to ensure that walls that will have furniture fixed to them using metal fixings have sufficient rigidity and strength and we utilize a specially reinforced specification for the metal fixings.

## Strengthening seismic resistance through home renovation

Tokyu Re·design Corporation's "Total housing renovation system" goes beyond renewing a property's interior and exterior decoration and facilities to achieve a complete renewal that "strengthens the building from the core to create a home that will last". Tokyu Re·design Corporation's "Seismic Resistance System" is designed to protect against earthquakes up to 6 on the Japan Meteorological Agency Seismic Intensity Scale, and with the aftershocks, and also includes the latest seismic damping device as standard. With "Total housing renovation system" and "Seismic Resistance System", your residence can be transformed into a new home that provides real security and peace of mind.

# Responding to the Trends towards Smaller Families and an Aging Society

## Initiatives to Address Social Issues through the Senior Housing Business

In Japan, the aging of society is accelerating, with people age 65 or older accounting for more than 27% of the population. At the same time, there is a severe shortage in the supply of housing where senior citizens can continue to live comfortably with a sense of security. Moreover, partly because of the weakening of community bonds, there are many cases in which senior citizens and people who need long-term care live in isolation. The Group is applying the experience and expertise it has acquired over more than 10 years to support integrated community care and conduct initiatives to promote interaction among generations that include participation of community residents. We will continue to support the lifestyles of senior citizens so that everyone in the community, not just those who live in the housing the Group provides, can enjoy their own lifestyles for all time.

## Long-term urban development project to promote interaction among generations and lifestyle continuity from one generation to the next

In view of social issues such as interaction among generations and changes in life stages with the extension of healthy life expectancy, the Setagaya Nakamachi Project (Setagaya-ku, Tokyo), a complex consisting of senior housing and condominiums for sale, opened in 2017 based on the concept of promoting interaction among generations and lifestyle continuity from one generation to the next. This project involves development of a community where residents can continue to live in comfort, security and health no matter what life stage they are at. The project, which takes into account the needs of Japan's aging modern society, including the need for a sense of security from having multiple generations living nearby and realization of diverse home styles in the same community, was the first to be selected in the Tokyo Metropolitan Government's "Project to Establish Senior Housing with Services Combined with Ordinary Residences."

### Junior golf lessons

Tokyu Land Corporation and Tokyu Resort Service Co., Ltd. have been arranging golf lessons for elementary school students during summer break to help children get fit and learn new skills and good manners. The lessons, led by golf pros, were held at the Otakijo Golf Club in Chiba Prefecture in August 2019. (These photos are from 2018)

### Supporting child raising through condominiums

In September 2015, Tokyu Livable, Inc. opened the doors to the model unit for L'gente Liber Shiki, the first in a series of renovated condominiums with the concept of "creating happiness for families raising children." This building features a unique "child raising support master plan" in which layouts provide a comfortable living environment for families raising children and considers the future of the children living there. So that both children and families alike can live in comfort and peace of mind, condominiums that adopt this master plan are thoroughly checked by accredited experts in all aspects, from individual units, common areas and management system to property location and surrounding environment, receiving accreditation as a "child-friendly housing and environment" from Mikihouse Child & Family Research and Marketing Institute Inc.

# Promoting Communication

## Communication with customers

Reflecting the Group's desire to continue to enrich customers' lives even after they have purchased our products or used one of our services, we run the Tokyu Cosmos Club, which is an exclusive member's only organization. We are broadening communication with the more than 100,000 members of the Tokyu Cosmos Club through the Group newsletter **Cosmos** and the member's only website called Cosmos WEB. In particular, in the customer satisfaction survey carried out in 2021, 92.2% of the members gave us opinions that they are "satisfied". We will continue to strive to deepen communication with our customers. In FY2021, we began measuring the Net Percentage of Recommended Customers (NPS®), which measures "how well a company treats its customers and how well it generates customer loyalty. We will continue to analyze customer feedback and strive to provide even better service.

## Communication with tenants

With the aim of helping the office workers working in buildings managed by the company to enjoy a more fulfilling office lifestyle, Tokyu Land Corporation publishes the free newspaper **Office To**, and also operates the Office To CLUB website in collaboration with EWEL Inc. to inform tenants about special services offered by the Tokyu Fudosan Holdings Group that they can access. Both **Office To** and Office To CLUB have proved very popular with readers and site-users.
